

SPEED CAMERAS

OVERVIEW

TomTom Speed Cameras alert drivers to locations of speed cameras, average speed zones, red-light cameras, likely mobile locations and other safety-related locations. TomTom has over 95,000 fixed locations in 54 countries. Our community of more than 5 million members report more than 1 million mobile cameras per month.

Fixed Speed Cameras are available in 54 Countries

Mobile Speed Cameras are available in 53 Countries

HOW IT WORKS

The TomTom Community numbers more than 5 million members and is growing fast. With the camera reports and confirmations sent by drivers to our centralized fusion engine, we identify real fixed and mobile camera locations and distribute them back to the community. Additionally professional moderators check all fixed locations with geospatial tools.

SPEED CAMERA TYPES

Fixed Speed Cameras
Red Light Cameras

Red Light and Speed Cameras
Restriction Cameras
Average Speed Zones
Speed Enforcement Zones

Likely Mobile Zones
Accident Blackspots

BENEFITS

ACCURATE DATA
Fixed locations manually moderated, location referencing using OpenLR

WIDEST COVERAGE
54 countries globally

MULTIPLE FORMATS
XML country bulk feed.
TPEG location-based service.
