

Mobile Order Management  
Full Visibility Anywhere, Anytime

# Mobile Order Management Full Visibility Anywhere, Anytime

## TomTom BRIDGE and Transporeon Mobile Order Management: Your solution for transport visibility

Transporeon is the leading global cloud platform for intelligent transport logistics. It creates a digital connection between shippers and carriers, achieving smarter, transparent and more cost-effective movement of goods around the world in industries such as Building Materials, Timber Metal, Plastic, Automotive, Electronics, Paper, Cardboard, Printing, Beverages, Consumer, Chemicals, Retail, and more. By digitizing the entire logistics supply chain, it also enables real communication and collaboration across the worldwide shipper-carrier community.

The company links today's largest global network of more than 1,000 shippers (manufacturers, suppliers, and retailers), 55,500 carriers (logistics and transportation service providers, 3PLs, freight forwarders, brokers, and drivers), and more than 100,000 users in over 100 countries through a range of software-as-a-service solutions available in 25 language versions.

Unique in the market, Transporeon Group solutions include onboarding, consultancy, and lifetime support with multilingual customer support. This ensures a customized fit for each organization, boosting shipper/carrier performance and cutting costs while optimizing carrier margins and lowering CO2 emissions. Transporeon services are ISO-27001 certified. Group headquarters are in Ulm, Germany.

*"The alert function informs all participants when a truck is running late. This means real time status updates and improved customer service!"*

- Supply Chain Manager, Global Steel Company

### The solution

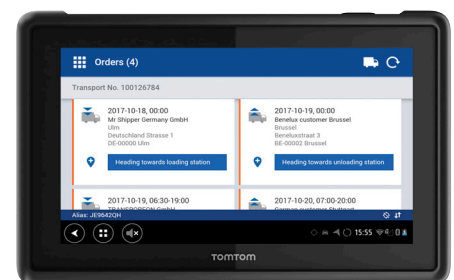

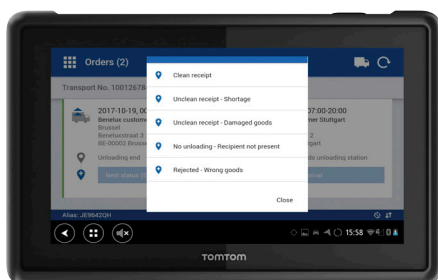

Mobile Order Management lets you gain full visibility anywhere, anytime. It lets you integrate your partners and processes digitally. With real-time shipment statuses, electronic documentation, and automated ETAs, you and your carriers and customers can plan more effectively, simplify processes, reduce waiting times and costs, and raise productivity. Customer satisfaction and competitive advantage guaranteed.

### Benefits

- Real time transparency in the end-to-end shipment journey
- Integration of all supply chain partners and transportation processes digitally
- All parties can plan more effectively, simplify processes, reduce costs and raise productivity
- Improvement of customer service

### The results

- Effective: Plan more effectively, reduce costs, and raise productivity. Significant cost reduction thanks to paperless electronic workflows
- Transparent: Integrate all vehicles and provides full transparency at the "last mile"
- Innovative: Easy optimization of internal logistics processes. Competitive advantage through innovative technologies
- Successful: Customer satisfaction thanks to Transporeon's years of successful utilization of Mobile Order Management and best-practice end-to-end transportation solutions at global scale
