

Collective helps councils to reduce costs, improve quality and ensure safe and compliant operations

Bartec Auto ID Ltd was formed in 1992 and is a family owned group of companies, based in the UK with offices around the world. Bartec work with more than 50 UK local authorities to deliver proven and sustainable benefits.

The solution

A comprehensive suite of software and mobile computing solutions specifically designed to meet local authorities' requirements to work safely, efficiently and flexibly every day of the year. The software covers 'Domestic Waste', 'Commercial Waste', and 'Route Management' as part of the set of 'Waste Management' modules, as well as the added benefit of 'Street Scene', 'Parks and Grounds', 'Highways' and 'Environmental Health' to its extensive module portfolio.

The results

Collective is proven throughout the UK to improve customer service and deliver real cost reductions.

"Collective has been the clear market leader for Local Authority waste and recycling operations for over a decade and continues to innovate in all areas of municipal front-line operations. We have around 2000 vehicles and crews using our systems every day and with mobile working becoming increasingly central to customer operation we expect that number to continue growing."
