Product Information

Software and Maps

TomTom Navigator Software and the maps of Great Britain are pre-installed on the SD Memory Card. The SD Memory Card is included in the box. Major Roads of Europe can be installed from the supplemental CD-ROM.

Installation of Major Roads of Europe requires a PC with Windows 98/NT/ME/2000/XP, a CD-ROM drive and internet access. The PC must be connected to your palmOne™ Handheld using HotSync®. HotSync® is supplied with your PDA.

Memory requirements

- A minimum of 5 MB of free memory on your Palm OS handheld is required to run the software.
- If you wish to use Major Roads of Europe, you will need to make space available on the SD Memory Card provided or you may install the selected maps on an additional SD Memory Card.

Languages

TomTom Navigator is available in the following languages: Dutch, English, German, French, Italian, Spanish, Danish and Swedish. In addition to these you can choose Flemish and Norwegian as preferred languages for voice guided instructions.

Available for:

Tungsten™ T3 from palmOne
Tungsten™ C from palmOne (wired version only)
